

EDUCATION

Shri G.S. Institute of Technology and Science <i>B.Tech in Electronics and Instrumentation Engineering</i>	2021-2025 <i>Current GPA: 7.2/10.0</i>
Sky Hieghts Academy, Indore <i>Higher Secondary School</i>	2021 94.4%
St. Mary's Co-Ed School, Harda <i>Senior Secondary School</i>	2019 87.7%

EXPERIENCE

Market Analyst - Future First | Jan 2025 - Present

- Analyzed **6+** global grain markets (**soybean, corn, wheat, veg oils**) using supply-demand data, USDA reports, export sales, COT data, and crop progress reports to identify trading opportunities.
- Generated **15-20 trade ideas per week** based on structured analysis of market data, contributing to desk-level positioning decisions.
- Developed and deployed **delta-neutral, multi-leg mean-reverting strategies** across grain futures curves, validated using **statistical tests (ADF, cointegration)** to identify arbitrage opportunities.
- Executed **30+ complex spread and arbitrage structures**—including **butterflies, condors, inter-commodity and inter-exchange spreads**—to capture relative value dislocations.
- Monitored global macro factors (USD, crude, interest rates) and evaluated their impact on commodity price.

Market Research and Modeling

- Developed structured frameworks** to **analyze price reactions** to key market events (expiry, rollovers, data releases.)
- Conducted **variance analysis** between expected vs actual price behavior based on fundamental triggers.
- Studied price behavior across different market conditions to identify repeatable trading patterns.

PROJECTS

Synchronus | Full Stack Website

- Developed a real-time chat application using React for the frontend, Node.js and Socket.io for the backend, enabling users to send and receive messages instantly.
- Implemented user authentication and authorization with JWT and bcrypt, providing secure login, registration and user management.
- Integrated MongoDB to store user information, chat messages, and chat history, ensuring efficient data retrieval and storage.

TECHNICAL SKILLS

Languages: C, Python, (Core)Java

Libraries: NumPy, Pandas, Seaborn, Sci-Kit Learn, Matplotlib, Excel

Web Technologies: HTML, CSS, JavaScript, NodeJS, ReactJS, ExpressJS

Database: MongoDB, MySQL

Finance: Commodities, Derivatives, Option Greeks

POSITION OF RESPONSIBILITY

YAN Club Member

Dec 2021 - Aug 2022

Worked as a research member in YAN club, SGSITS' official aerodynamics club.

Sergeant in NCC

April 2017 - March 2019

Managed and trained more than 100 cadets as a sergeant in the National Cadet Corps (NCC) at National Level.
